## Job Description

**Promatech, Inc.** is looking for experienced Roadway Construction Inspectors with NICET II, III or IV certifications for roadway and bridge construction projects in New Jersey and Philadelphia.

Promatech is a certified WBE/SBE/DBE firm providing construction and project management support services. Our firm offers the A/E/C Industry unexcelled quality with construction management, project management, CPM scheduling, construction inspections, constructability reviews, public outreach and M/WBE Compliance.

### Overview

- Work may include milling, resurfacing, sidewalk replacements, curbing, curb ramps, intersections, bridge deck repairs, etc.
- Extended shifts such as night work may be required

### Job Requirements

- Minimum NICET II inspection certification is required
- ACI Concrete Field Testing Certification preferred but not required
- At least 3 years of construction inspection experience on roadway construction projects
- Ability to read contract documents and construction plans
- Excellent communication skills – written and verbal
- BS in Engineering or Construction Management preferred but not required
- Valid drivers license is required
